

## Requirements for Group Supervision

Groups must be registered at least one working day prior to the visit: [kurse@pilatusindoor.ch](mailto:kurse@pilatusindoor.ch) or +41 41 310 02 87. Please note that without prior registration, we cannot guarantee admission.

**Supervision of groups climbing top rope** must be conducted in accordance with VSBK guidelines. This requires prior training or further education as well as regular and frequent experience in supervising groups. If these requirements are not met, the group may instead use the bouldering area and the auto-belay stations. Please note:

- Use of the bouldering area is subject to the VSBK bouldering rules.
- Use of the auto-belay stations requires an introduction by our staff and adherence to the corresponding rules.

**Supervising groups in lead climbing or independently belaying participants in top rope (pairs)** requires that participants are already educated and that they meet the VSBK requirements for the planned climbing activity.

Please note: Instructing others in our facility may only be conducted by certified VSBK instructors.

### Why VSBK?

The VSBK develops, maintains, and continuously updates standards and guidelines for climbing facilities in Switzerland. Every guest has the right to be trained according to the latest safety standards. For this reason, VSBK standards apply in our facility.
